WORK EXPERIENCE

Senior Developer

Detroit Software Consultant

12/2019 - Present

Sector 30 Gurugram

Achievements/Tasks

- Subaru CMS : We have created a Content Management System for Subaru, where the client its self modified the Site and can Publish it without any development skills. We used React Node and MYSQL and we use Grapes js package which allow user to drag and drop UI component and customize them.
- Charlie: Charlie is an Email Marketing Automation Tool which is used to create email and send across the subscriber. We have used Grapes and ACE editor and Unlayer as a package to create email and we use sendgrid as a backend engine to send emails. We use React, Node and Mysql as programming languages. We use AWS to host the assets and host the site in ec2.
- Chatbot Using OPEN AI and IBM Watson We have created a customize chatbot using OPENAI and IBM Watson for ford.
- Dynamic Images We have created a platform where user can create dynamic images by passing variables and populating the variable value by fetching it from Database.
